SUMMARY

I'm a Full-Stack Developer and I have knowledge in HTML, CSS, JavaScript, Typescript, Python, and the most up-to-date technologies. I have worked on several projects using React, Redux, Node.JS, Postgres, and Typescript. I look forward to using all the knowledge I gained from my studies to contribute to a team.

TECHNICAL SKILLS

Python, OOP, SQL, Flask, Django, Javascript, React, Redux, Typescript, Git, Postgres.

TECHNICAL PROJECTS

Text-Based RPG- [Github](#)

A text-based RPG game made in Python and OOP for a Hackathon, version control was with Git and GitHub

I built this project as part of a team in order to solidify my basis in OOP

- Implemented Items and Equipment into the game to add a sense of scaling
- Implemented stats screen in order to be able to check your character's progress
- Troubleshooting and bug testing every time a new feature was implemented

Collaborative Online Whiteboard- [Github/Deployed](#)

An online whiteboard made in React with Redux and Typescript and databases using Node.js and Postgres

- Implemented user login in CRUD
- Implemented databases for users and whiteboards
- Troubleshooting and bug testing every time a new feature was implemented

EXPERIENCE

Customer Support Representative

Jerusalem, Israel

TCS Telecom

06/2020 - 06/2021
